

As Principal Investigator, Dr. Chavez's primary research areas include addiction medicine, depression, dementia (Alzheimer's disease), schizophrenia, anxiety, and attention deficit disorder. Dr. Chavez has been with Artemis Research since 2014.

Eric Chavez, MD, MS

Dr. Chavez completed his undergraduate degree at Harvard University and his medical degree at the Uniformed Services University of the Health Sciences. After medical school and service in the U.S. Navy, Dr. Chavez completed his psychiatry residency at the University of California San Diego and subsequently earned a Master of Science degree in medical informatics at Northwestern University. As a Principal Investigator at Artemis Research, his main areas of research include addiction disorders, depression, bipolar disorder, anxiety, schizophrenia, and attention deficit disorder. Dr. Chavez joined the Artemis Research team in 2014 and has conducted over 50 clinical trials in the CNS/psych space.
