

Dr. Casey has a long history of collaborating with healthcare professionals, regional health services, and government agencies to serve vulnerable populations and improve health outcomes.

Ryan P. Casey, MD

Dr. Casey earned his MD at the University of Anahuac in Mexico City, Mexico. He completed the family and community medicine residency program at Yuma Regional Medical Center in AZ, which is affiliated with the University of Arizona College of Medicine and a clinical partner in the Mayo Clinic Care Network.

Board certified in family medicine, he holds medical licenses in the U.S. and Mexico. He is an instructor for the Clinical Trial Academy at the Medical Center of the Americas and has served as member of the Primary Healthcare Interprofessional Research Collaborative, American Association for Physician Leadership, American Academy of Family Physicians, and World Organization of Family Doctors.

Dr. Casey's diverse professional experience has primarily centered in U.S. states bordering Mexico. His roles have included Medical Director and Laboratory Director at multiple life sciences and healthcare organizations while providing and supervising telehealth and home-based care for Medicare Advantage beneficiaries, private insurance plan members, and U.S. military Veterans.

His clinical experience also includes practicing as a family physician primarily in rural, underserved communities in the U.S. southern border region. He has contributed to community health collaborations serving migrant and seasonal farm workers in AZ and other Hispanic community members in CA, NM, and TX.

In addition to working as a principal investigator at a dedicated clinical trial site in El Paso, TX, and previously in Las Cruces, NM, he has also worked on multiple vaccine studies and the development of biologic medicines. At Headlands Research El Paso, Dr. Casey continues to focus on collaborating with healthcare professionals, regional health services, and government agencies, to serve vulnerable populations and improve health outcomes.
